Subject: Proposed Settlement

I can not disagree with the proposed settlement with Microsoft enough. Despite the clear ruling that Microsoft is a monopoly, who has illegally used it's power to enforce it's monopoly, none of the settlement terms would affect the key components of Microsoft's monopoly. I will not go into the details here, I'm sure you are aware of what I'm talking about. Please reconsider your proposed settlement and consider positions such as California's.

Yours Truly,
Lee G. Shapiro
